Redefining uPVC Windows and Doors

Introduction to *cliffer*[™]

Founded with a bold vision, Cliffer is the newcomer revolutionizing the uPVC windows and doors industry. Although new to the market, Cliffer is rapidly building a reputation for uncompromising excellence. Every window and door we produce embodies premium standards in materials, craftsmanship, and structural integrity.

Why Choose *cliffer*[™]?

Cliffer embodies dedication, resilience, and timeless elegance.

From home renovations to iconic architectural marvels, our unwavering focus on pristine quality, immaculate finishes, and robust GI-reinforced frames delivers windows and doors built to last.

Experience the new benchmark in ultimate uPVC craftsmanship — experience Cliffer.

USP – Purity of Quality

Our uPVC profiles are sourced from top-tier suppliers and undergo stringent quality assurance.

Every batch is tested for consistency, durability, and performance, reflecting our commitment to superior material standards.

Exquisite Finishing

At Cliffer, we believe finish is precision. Each unit is meticulously crafted for smooth operations, tight seals, and a flawless look, resulting in elegant interiors, superior weather resistance, and lasting appeal.

Fully GI Reinforced

We embed galvanised iron bars (1mm-2mm thick) within every frame and sash, enhancing stability, security, and resistance to warping.

This allows our products to support large glass panes, accept heavy-duty locks and hinges, and maintain shape under high wind or heavy usage.

Salient Features

- Premium UPVC Quality
- Enhanced Energy Efficiency
- Superior Sound Insulation
- Maximum Security Features
- Weather Resistant & Durable
- Low Maintenance
- Customization Options
- Expert Installation
- Eco-Friendly Choice
- Long-Term Investment
